

Waterfront International Ltd

95 Wellington Street West
Suite 1900
Toronto, ON. M5J 2N7

Jr/Sr C++/Unix Programmer

Waterfront International is a Toronto-based financial consulting firm, specializing in developing computer based statistical trading strategies. Waterfront's selective hiring process considers only highly talented individuals with a history of exceptional professional and academic achievement, and solid real-world experience.

Primary Responsibilities:

- Maintain existing real time data processing applications
- Design, code and test new applications ensuring correctness
- Work closely with analysts and other groups to provide software solutions
- Monitor performance of programs after implementation
- Troubleshoot and resolve application problems

Key Technologies:

- UNIX, C/C++, Sybase, Tibco/Rv, Wombat and other various third party solutions

Requirements of the Candidate include:

- 3+ years of professional C/C++ programming experience
- University education with background in computer science or related field
- Proven analytical and creative ability in developing business applications
- Excellent programming skills in fast paced production environment
- Excellent analysis and problem solving skills
- Demonstrated ability to work independently under minimum supervision
- Keen desire for continuous learning
- Experience with multithreaded applications preferred but not required

Candidates with limited to no experience can apply for the Jr C++/Unix Programmer position.
